

RAHUL VYAS

Senior React Native Developer & Team Lead

rv61229@gmail.com | (+91) 8769920555 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

React Native Developer with 4+ years of experience building cross-platform mobile applications for iOS and Android using React Native, Expo, JavaScript, and TypeScript. Experienced in developing and deploying production-ready applications, leading development teams, and working in Agile environments. Skilled in Firebase, REST API integration, AI-based features, and mobile app performance improvement. Strong background in client communication, requirement analysis, and delivering user-focused mobile solutions from development to deployment.

EXPERIENCE

React Native Developer & Team Lead | Microlent System Pvt. Ltd.

(Nov 2021 - Present)

- Developed and deployed 3+ cross-platform mobile applications using React Native for iOS and Android platforms.
- Led a team of 3–5 developers for 1+ year, managing task allocation, code reviews, and delivery timelines.
- Collaborated directly with clients for requirement gathering, project planning, and end-to-end delivery.
- Received Outstanding Client Management Award for successfully managing client relationships and delivering high-quality solutions.
- Integrated REST APIs and Firebase services for authentication, real-time data handling, and backend functionality.
- Implemented secure in-app payment integration using PayPal API for subscription and premium features.
- Improved development efficiency by building reusable components and streamlining development workflows.
- Enhanced application performance by optimizing rendering processes and reducing API response delays.
- Designed responsive and user-friendly mobile interfaces compatible across multiple devices and screen sizes.

KEY PROJECTS

My Magic Moments (AI Powered Storytelling App) (2.5 years)

Technologies: React Native, TypeScript, Firebase, PayPal API, AI Integration

- Developed an AI-powered mobile application using React Native for personalized storytelling experiences for children.
- Implemented voice cloning and AI-based personalization to enhance emotional engagement.
- Integrated PayPal payment gateway for secure premium subscription transactions.
- Managed application deployment through TestFlight for smooth release cycles.
- Optimized application performance and UI responsiveness across Android and iOS devices.

Voice Recorder App (1.5 year)

Technologies: React Native, Expo Audio API, Firebase Cloud Storage

- Built cross-platform application using React Native and Expo Audio API for high-quality voice recording.
- Enabled storage and management of audio files using Firebase Cloud Storage and local storage.
- Optimized application performance for smooth recording across multiple devices.

Truencers (Brand-Influencer Platform) (7 months)

Technologies: React Native, REST APIs

- Developed features enabling seamless collaboration between brands and influencers.
- Improved UI/UX and contributed to scalable mobile application architecture.

ACHIEVEMENTS

- Awarded **Outstanding Client Management Award at Microlent Systems** for excellence in client communication and delivery.
- Led a development team for 1+ year, improving project delivery efficiency and successfully delivering multiple production-grade mobile applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Mobile App Development: React Native, Expo, Android, iOS, Android SDK, Xcode, TestFlight

State Management: Redux, Context API

Backend & API Integration: REST APIs, Firebase Authentication, Firebase Realtime Database, PayPal API

AI & Advanced Features: AI Feature Integration, Voice Cloning, Prompt Engineering, Context Ai engineering

Tools: Git, GitHub, GitLab, VS Code, Expo CLI

Core Concepts: Cross-Platform Development, Performance Optimization, Debugging, Responsive UI Design, Agile Development

EDUCATION

Bachelor of Computer Applications (BCA)

(2018 – 2021)

Jai Narayan Vyas University Jodhpur, India

PERSONAL PROJECTS

Hiking Tracker App

Technologies: React Native, Expo, Expo Maps

Developed a cross-platform Hiking & Cycling Tracker mobile application using React Native and Expo, focused on real-time activity tracking and outdoor fitness experiences.

Implemented features such as trending trail search, live GPS route tracking using Expo Maps, distance and duration monitoring, and real-time speed tracking for cyclists.

Designed an intuitive UI to visualize user activity data efficiently while ensuring smooth performance and responsive user experience across devices.
